

Senior Policy Advisor / Payment Program Manager – ACO, Episodes of Care

Senior Policy Advisor / Payment Program Manager – ACO, Episodes of Care (two positions)

Job ID: 612890

Reports to: Payment Program Director

Job Classification: Senior Policy Advisor

Pay Grade: 25, Salary negotiable within pay grade range

Minimum Qualifications Education:

Education - Master's degree in public administration, health, humanities or human services, or graduate law degree.

Experience - Three years at a professional level in planning, policy analysis, business, public administration, health or human services where the duties include strategic planning, program evaluation and design, research and data analysis, report writing and public involvement processes.

Note: Additional experience as defined above may be substituted for the master's degree on a six months for a semester basis.

There may be funding available for relocation expenses.

Overview:

The Department of VT Health Access (DVHA) seeks a strong candidate with experience in care delivery or payment reform models to fill an exciting new role supporting the implementation of major initiatives under the State Innovation Model (SIM) grant.

The Payment Program Manager will play a key role in supporting the design and implementation of the Integrated Care Delivery model initiatives under the State Innovation Model.

As Payment Program Manager you will be responsible for deadline compliance and work product quality as well as policy and data analysis, program design, process development, operations planning and the management of implementation activities.

The Payment Program Manager must have an understanding of the complexities of health reform, the State Innovation Model, Medicare and Medicaid payment and care delivery policies and systems, as well as the payment reforms identified in the Affordable Care Act are required. Specialized knowledge of payment reform policy and systems and a thorough understanding of change management principles, the ability to produce project implementation plans, reports and effectively present complex information to a wide range of audiences is required.
